

Addendum to Gunnedah

I got some more photos from Mark Stevenson (actually 500 on a DVD!) but here are just a few for you to review.

Here is Phil, his Tiger Moth and well deserved "Top Gun" award and a view inside the cockpits. Just look at those hand-made instruments!

Oh and here's a couple of shots of another rather fine Tiger Moth that looks so good on a slow flypast (just don't look as close on the ground) and what a smooth landing!

And another landing

oh, and did I mention the Flivver?
